

July 18, 2001

To: Narayana I. Srinivasan, Computer Scientist,  
Office of Program Management & Architecture

I am attaching a nice letter I recently received about you from Chairman Grassley. As Commissioner, I am always gratified to receive positive feedback about the efforts of Internal Revenue Service employees. As we work to create an IRS that provides the best possible service to America's taxpayers, we need the help of each employee, and I hope that I may count on your continued support in achieving our long-term modernization goals.

With best wishes,

*Charles O. Ross*

Commissioner
